

Pool Monitors Needed

The pool is our largest amenity and one of our biggest assets as a community. The HOA has contracted with a pool maintenance company to clean and service the pool (2X a week) and clean the restrooms on a weekly basis. Having the pool maintenance company come daily is cost-prohibitive. However, someone needs to check the pool on a daily schedule to ensure that everything is functioning properly, to see that the pool is clean and presentable for residents, and to be alerted so that any problems or issues may be caught and corrected in a timely manner.

Just as we had last year, we need a team of residents who would be willing to commit to helping oversee the pool. These pool monitors would be responsible for checking the facilities once a day to ensure that the pool facilities are in proper condition and for unlocking and locking the bathrooms mornings and evenings (at this time, the restrooms will be closed- they may open during the season). Residents will sign-up for one-week intervals and receive a training session from the pool committee. Residents may choose the weeks they will serve so as not to conflict with vacations or family plans. Hopefully, we will have enough volunteers, so each will only have to serve one week. If you enjoy the pool, please consider offering some of your time to help keep the pool facilities presentable and functioning properly and to help with keeping HOA costs down.

Please sign below if you are willing to serve as a pool monitor for the 2021 pool season. Return this form to the pool committee with your pool registration.
